GUIDELINES FOR USE OF THE REPORTING FORMAT

The following reporting format is prepared for the collection of data for the third National Report as required under Article 33 of the Cartagena Protocol on Biosafety. It consists of a series of questions based on the requirements of the Protocol as well as questions that relate to indicators of the Strategic Plan for the Cartagena Protocol on Biosafety for the period 2011-2020.

The reporting format has been developed within the context of decisions BS-V/14, BS-VI/14 and BS-VI/15, taking into account comments for the improvement of the reporting format received from Parties during the second National Report exercise and the survey to gather information corresponding to indicators in the Strategic Plan¹ as well as the recommendations of the Compliance Committee.

The general principles that have been applied in the development of the third National Report are as follows: *a) the retention of all questions from the second National Report format that require regular updating (i.e. refer to information and/or measurable indicators that may change between reporting times) as requested in decision BS-V/14, paragraph 8(a), point (i); b) the introduction of all questions from the survey on the indicators; c) the deletion of all questions from the second National Report format whose answers are already available to the Secretariat through the Biosafety Clearing-House; and d) the merging of all questions that were similar, or addressed the same issues, in both the second National Report format and in the dedicated survey on the indicators.*

Responses to these questions will help Parties review the extent to which they are successfully implementing the provisions of the Protocol. The responses will also assist the Conference of the Parties serving as the meeting of the Parties to the Protocol (COP-MOP) in its assessment of the overall status of the implementation of the Protocol, including measuring the progress in implementation during its review of the Strategic Plan of the Protocol.

All questions listed in the report format contribute to measuring progress against the baseline adopted by decision BS-VI/15, paragraph 2. The reporting format is intended to gather important information regarding the implementation of the provisions of the Protocol. Most questions are in a multiple-choice format requiring only a tick in one or more boxes. Text fields are available as an option to Parties who wish to provide further details on the implementation of the various articles.

The questions follow the wording of the relevant articles of the Protocol as closely as possible, and the use of terms as per Article 3 of the Protocol.

Questions highlighted with grey background are not strictly based on either the provisions of the Cartagena Protocol on Biosafety, or the indicators of the Strategic Plan, or the decisions of the COP-MOP, but are however included in the reporting format to help in the assessment and review of the Protocol in the context of Article 35.

The origin of each question in the third National Report is referenced in the relevant footnote indicated by the number in parenthesis next to the question.

The report is intended to cover implementation activities undertaken between the presentation of the second National Report (or the entry into force of the Protocol for reporting Parties that ratified or acceded to the Protocol after 11 September 2007) and the date of reporting for the third National Report.

The Executive Secretary welcomes any comments on the adequacy of the questions, challenges in completing the questions, and any further recommendation on how the reporting format could be improved. Space is provided for such comments at the end of the report.

It is recommended that Parties engage all relevant stakeholders in the preparation of the report in order to ensure a participatory and transparent approach, and the accuracy of the information requested.

This reporting format may also be submitted electronically through the Biosafety-Clearing House (BCH) at <http://bch.cbd.int/managementcentre/edit/CPBnationalreport3.shtml>

The deadline for the submission of the third National Report is 1 November 2015, i.e. 12 months prior to the eighth meeting of the COP-MOP. Late submissions will not be included in the analysis to be submitted COP-MOP at its eighth meeting.
